457(b) Savings Plan

Your employer offers the RAMS 457(b) plan as a way to help you save for life beyond your prime working years. A 457(b) plan allows you to save money by making salary contributions on pre-tax basis or Roth (if your plan allows). You have full ability to start, stop, increase or decrease contributions at any time.

While your TRS pension may be enough to cover your expenses when you first retire, your reduced monthly income may not be sufficient for factors like medical bills, taxes, and your desired standard of living. You need a low-fee, high quality savings plan to help you meet a comfortable lifestyle upon retirement.

Plan Highlights

- ✓ Low and transparent fees
- ✓ No 10% early distribution penalty tax
- ✓ No surrender charges or hidden fees
- ✓ No product commissions
- ✓ Start/stop contributions at any time
- ✓ Professionally-managed portfolios
- ✓ Fiduciary oversight by TCG Advisors
- ✓ FinPath Wellness (more on next page)

Retirement Contributions Tax Credit

Also known as the Saver's Credit, an individual may be able to take a tax credit of up to \$1,000 (\$2,000 if filing jointly) for making eligible contributions to an employer-sponsored retirement plan.

How to Open Your 457(b) Account

1. Visit www.region10rams.org/enroll and click **Enroll**.
2. Enter the name of your employer and choose the **457(b) Savings Plan**.
3. Follow the steps on screen to select your salary contribution and investment options. Don't forget to designate an account beneficiary.

Note: If you're unsure about which investment option to select, please contact us at 512-600-5204 or at www.region10rams.org/telewealth.

4. Continue until you get a **confirmation notice**, and you're done!

403(b) Savings Plan

Another option you may consider when planning for retirement is a 403(b) Savings Plan. While very similar to a 457(b) plan, there is a more involvement required on your behalf to get started. You must first establish a 403(b) account with an investment provider from a list of 50+ approved vendors, and then elect contributions on a pretax or Roth basis (if available).

Enrolling in a 403(b) savings plan can help bring financial stability and security for life upon retirement. By participating, you can lower your current taxes or earn tax-free income, bridge your retirement income gap, and achieve financial independence.

Why Contribute

- ✓ Avoid a gap in your income during retirement
- ✓ Take advantage of tax benefits
- ✓ Improve your financial wellbeing
- ✓ Automatic payroll deductions take stress out of planning
- ✓ Decrease your dependency on government- funded pension plans

Investment Options

Investments in the plan are managed by a provider of your choosing, and plan administration services are provided by TCG Administrators. Once you have established your plan, TCG can help with distributions, transfers, loans, and rollovers. Investment questions must always be directed to your individual plan provider.

Teachers Retirement System (TRS)

About TRS

The Teacher Retirement System of Texas (TRS) administers a pension trust fund that has been serving the needs of Texas public education employees for over 75 years.

How much do I qualify for at retirement with TRS?

See the following example of how to apply the TRS Formula.

John started working as a teacher for the school district in September of 1991 right out of college. He is ready to retire at the end of this school year (2021) so he has worked a total of 30 years. His highest 3 years of salary were \$58,000, \$60,000, and \$62,000. John would like to know how much he qualifies for at retirement.

John can use the **TRS Formula** below to find this out:

$$\begin{array}{ccccccc} \text{Years of Service} & \times & \text{State Multiplier (2.3\%)} & \times & \text{Average 3-5 Highest} & = & \text{Maximum Benefit} \\ & & & & \text{Years of Income} & & \\ \hline 30 & \times & 2.3\% & \times & \$60,000 & = & \$41,400 \end{array}$$

Your turn!

Let's break up the TRS formula for your own individual situation!

Part One

$$\frac{\text{Your Years of Service}}{\text{Your Years of Service}} \times 2.3\% \text{ (State Multiplier)} = \frac{\text{Income Percentage from TRS Pension}}{\text{Income Percentage from TRS Pension}}$$

Part Two

$$\frac{\text{Income Percentage from TRS Pension}}{\text{Income Percentage from TRS Pension}} \times \frac{\text{Average 3-5 Highest Years of Income}}{\text{Average 3-5 Highest Years of Income}} = \frac{\text{Maximum Benefit}}{\text{Maximum Benefit}}$$

Rollover Options

What are my rollover options if I leave my employer?

You have a few options to consider when it comes time to leave your employer. It all depends on where you are in your financial journey.

Option 1: Leave money in previous employer's plan (if permitted)

Benefits: No immediate action is required. Earnings remain tax-deferred.

Disadvantages: Can no longer contribute through payroll contribution. It's more complicated managing multiple plans from different employers.

Option 2: Rollover your money to your new employer's plan

Benefits: The plan remains tax-deferred; you can continue to contribute; your plans are now consolidated.

Disadvantages: Requires paperwork and approvals; this process can be somewhat time-consuming.

Option 3: Rollover your money into an IRA

Benefits: The plan remains tax-deferred; you may have access to more investment providers and investment options.

Disadvantages: You cannot borrow money from these accounts.
