Omniglot

This site assists middle and high school students with developing their reading and writing skills. Access free online dictionaries and resources in more than 100 languages! Check out the omniglot.com web page to explore more.

The Family Learning Center

Learn as a family with this collection of online videos and games. The Family Learning Center website (<https://bit.ly/3ntv6m9>) provides tips for elementary and middle school students to help increase their listening, speaking, and reading skills.

Back-to-School Parent Conferencing Tool

Parents and Teachers worked harder than ever last year, and we saw that we're stronger when we work together. Teachers are the experts in classroom learning, and parents are the experts on their children. Share what you've noticed about your child with the teacher so that he or she can best connect with your child in class.

Interested in partnering with your child's teacher to support learning? Download our new tool to help you have this conversation. Together you can get the teacher to better know your child, pinpoint academic progress, and partner up on a plan to ensure their success this school year.
